Christian van Woudenberg

Dear Mr. Woudenberg,

Thank you for your terrific fight against energy company shortsighted greed, which threaten the town of Erie and the nation's ecosystem. Your bravery and commitment to the safety of Erie is commendable. Pumping and fracking for oil and gas is now a known connundrum.

Please kindly accept our modest SLF Award in admiration of your work and triumph towards making the world a better place. We look forward to hearing more about your continued progress.

Very respectfully,

Bart Ziegler, PhD
