Mr. Phillip Ruch
Center for Political Beauty

Dear Phillip Ruch,

After reading about your Holocaust memorial replica installed adjacent to the home of a far-right German politician, we at the Samuel Lawrence Foundation regained hope. We are moved and inspired by your work with your Center for Political Beauty. Yours so poetically shines a light on areas of the global political landscape that sorely need illumination.

Please accept our modest award as an acknowledgement of our appreciation for your continued work that goes beyond promoting discussion and contemplation, but creates an uncomfortable wakeup call that demands action for ordinary citizens as well as politicians.

Thank you for interrupting the status quo with the most powerful tool we have, art.

Kind Regards,

A handwritten signature in cursive script that reads "Bart".
